

SYLLABUS OF A SUBJECT OF DOCTORAL STUDIES

Title of the subject	Science Category (Code)	Faculty
Theory of Communication	Communication and Information S 008	Communication

Mode of study	Number of allocated ECTS credits	Mode of study	Number of allocated ECTS credits
Lectures		Consultations	2 ECTS
Individual work	4 ECTS	Seminars	1 ECTS

Course abstract
<p>The aim of the subject is to analyze the currently relevant issues of the theory of communication science(s) as well as the main schools/traditions and prospective directions of development while advancing the critical and analytical skills of doctoral students in the course of exploring and assessing historical and contemporary issues pertaining to the field of communication on the grounds of the latest theory of the communication and media sciences.</p>
<p>Content of the subject</p> <p>Theories of communication, their fundamental principles and key concepts. The main schools of the theory of communication and their key authors. The social theories applied in communication science(s). Models of the process of communication. Semiotic structural models. Psychological needs and the functions of social communication. Expression through text and image, the specific aspects and culture of communication. Discourse of media and medias. The rhetoric of medias. Methods of communication research.</p> <p>Classification of communication by its contexts. Relationship of communication contexts. Theoretical insights into interpersonal communication. Communication of organizations; key software of communication management. Theoretical attitude to integrated communication, elements of integrated communication, their relationship and interaction. Theoretical models of the research of group communication. Problem areas of the internal communication within an organization; key theories. The culture and identity of organizations. Management of corporate communication. Image of an organization and the reputation of an organization. Research of organization communication. Use of social networks in corporate communication.</p> <p>Public communication. Researches of the discourse of public communication. Specific features of the discourse of social media. The key theoretical concepts of political communication. The interaction/relationship between political communication and the mass media. Communication of citizen involvement. The impact of the Internet and mobile communication on political communication. Global, international, and intercultural communication.</p> <p>Mass communication as an element of the public environment. Mass communication as a system and as an object of communication theory. The structure and institutions of mass communication, the causes and trends of its alteration and development. Functions of mass communication. The critical theories of mass communication. The objects and methods of research of mass communication. Messages of mass communication, methods and models of their research. The audience of mass communication, methods of its research and the core theories – the critical theory and the normative theory. Theories of the effects of mass communication. Impact of mass communication on culture and the position/placement of mass communication within the structure of culture.</p> <p>Visual communication and methods of its research (research of the content and composition;</p>

semiotic, psychoanalytical, discourse and audience research). Visual material as a source of research and a means of the distribution of the research output. Concepts of visual rhetoric and their research in communication science(s). The social impact of visual phenomena. Critical research of visuality.

Study methods

1. Individual consultations with the lecturers supervising the subject.
2. Individual research of academic literature and the preparation of an academic paper focusing on the questions posed by the lecturers supervising the subject.

Methods of assessment

1. Academic paper (from 30 000 to 40 000 symbols including spaces) focusing on the questions posed by the lecturers supervising the subject.
2. Oral discussion on the grounds of the academic paper presented by the student.
